Ex. 5 - Deliberative Process

do you want to take a stab and send to me or should i do it first.

Hedgpeth, Zach 10:56 AM:

I don't know of any glass facilities that are controlling for metal vapors, so it's all theoretical. Does oaqps know of any?

So, thoughts on controls are all theoretical at this point.

McClintock, Katie 10:57 AM:

no

yes, theoretical

just basically refuting the mercury assumption that you slap a baghouse on

and magic happens

they want it in a few minutes ;P)

Hedgpeth, Zach 10:58 AM:

Ex. 5 - Deliberative Process

McClintock, Katie 11:01 AM:

McClintock, Katie 11:01 AM:

Hedgpeth, Zach 11:02 AM:

Anyone from oaqps on the line have experience with APCD for metal vapors? There must be someone who could add experienced perspective...

McClintock, Katie 11:03 AM:

Ex. 5 - Deliberative Process

McClintock, Katie 11:03 AM:
